One of the features my guest and myself often comment on is how nicely lighted it is and how spacious it seems. Even though there are some constraints, there seems to be lots of space and you don't feel confined. I also love the windows. They add lots of light to create visual space. The colors are well done. The design is well done for the most part. My guest and I feel comfortable and we find the home to be very beautiful.

We couldn't be happier with our Bluestone Home! It's well built, very well insulated for sound and temperature, energy efficient, and full of high quality and unique fixtures and finishes. As with all new homes, there were some minor fixes - Bluestone owners and staff have been responsive, helpful, and timely in addressing these. They clearly care about their product and clients, even after the sale.
