I had my windows installed a few weeks ago the job was not finished and the windows had scratches and gouges in the plastic. Also broke the plaster in my wall and now my granite window ledges are uneven. Does not look as though it was promised. Still waiting for them to return and or at least call about coming back

The installer did an excellent job when it was discovered that there was wood rot beyond original expectations around the original door frame. The installer's years of experience, along with his framing and woodworking skills and knowledge, exceeded my expectations for replacing and reframing the surrounding...

My new window are a dream come true. I've waited a very long time to get rid of my old grid-lined windows with grid-less windows to include two new bay windows. Now I look out and see my surroundings in a new light, nothing is getting in my way and all of my new windows look so much bigger.

Overall the job was done well. I'm very pleased with the look of my house with the new windows. For the first time in years I've been able to enjoy opening my windows and letting the fresh air in! I also noticed, almost immediately, a 50% reduction in my electric bill!
