★★★★★

We are returning Champion Windows customers and selected a French door to replace our walkout basement door. The old door was one that the builder put in, which was of poor quality. The door we have now is very functional and looks great! We continue to be impressed with the quality of Champion Windows products.

From June to November, after a hail storm, I still have not received one picture window and 2 screens. I had to prove that my vinyl siding was their siding and I had to send proof of my warranty and coverage. I knew more about their warranty on windows and siding that they did.

Champion came out to my home and during the scheduling process did not ask dozens of questions, and the did not ask personal questions such as if I was married or have a domestic partner like other companies just to schedule an appointment. They were on time and their workmanship and quality of products are second to none.

I have had Champion Windows and Siding for my home in Denver for well over 25 years. They have been excellent windows and I have enjoyed them for 25 years, now I have new windows from Champion for my condo and once again I am so pleased. The quality of product and the excellence of service that comes from Champion Windows is a pleasure to experience. I will always highly recommend Champion and have already fielded several questions from my neighbors about my new windows. Hope this will benefit Champion here in the Denver/Aurora area.
