ABC Seamless gutters did an outstanding installation job. The crew was polite, flexible and checked with me to ensure I was pleased with how things were going during the project and again at the end to ensure I was satisfied. I couldn't be more pleased.

It was a very hot part of the summer when they started the install. They shows up on site about 7:00 A.M. the first day and removed all of the 2 layers of existing shingles and did some partial redecking of the roof. Day 2 they put on the trim, and started to cut the metal panels, and installed 8 more inches of insulation. Day 3 they installed all the new metal roofing and finished fitting the trim. On day 4 all that was left was to finish the chimney, and a few odds and ends. They walked around with a big magnet and picked up the metal pieces from cutting the metal panels and the screws and nails that they dropped, and the rest of the shingle pieces and tar paper that was left. Very thorough, professional, and knowledgeable.

The awnings look great! I wouldn't have thought of doing them like you did, but I really like them. And we are really appreciating them in this rain!
