Overall, they were excellent to deal with, both as a company and their subcontractors. They were professional, polite, and we had no problem with them coming in and out of our home when we weren't there. They were trustworthy and left the work space clean everyday whenever they left. They were thorough in reviewing the work that had been done or was ready to be done. I would refer them to family or friends if they were every in a position to need them.

So far, I've really appreciated the work by ARS. They've been timely and done a great job. I have a lot of confidence they will finish the project on time and without issues, which is not something I'd usually say about this type of project!

After experiencing a flood in my bathroom the ARS team came in quickly and dried the area. I worked with them through the rebuilding of my tub area and the completed project exceeded my expectations. The team was very professional from the onset and I wanted to stay with them through the completion of the project.

Fire happened Jan 11th. They have yet to begin repairing or house. Within first week they made holes in ceilings and walls covered them with plastic and that's how they left our home. Still waiting on project manager to call about repairs. It is now Feb 16th

Mitigation process went fine, they failed to communicate and begin restoration in a timely manner. Was sent a blank contract to sign and never a detailed description of work to be performed.

Comment from ARS Restoration Specialists

Hello David - Thank you very much for your feedback and response to our Guild Quality survey. Based on your response we understand our communication did not meet your expectations. Our goal on every job is to meet, or better exceed, our customers' expectations. In reviewing your job and correspondence with your Project Manager we'd like to better understand how we could have met expectations for the future. Please reach out to info@arsserv.com or to your Project Manager so we can discuss. Thank you, ARS Restoration Specialists.

The time period from my problem until work was completed was very long. The project wasn't that large but it took 3 1/2 months to complete.

ARS did an amazing job for our family. Our home looks better than new, and after the craziness of the fire that caused it, they were attentive and caring. They always returned phone calls and emails, and the crew that worked on our siding was second to none. Their workmanship was only bested by their smiles that greeted me every day. Great people to work with.

I had a water leak that continued for at least a week while away on vacation, major damage. ARS Restoration was responsive, they were on site within a couple hours of being contacted on a Saturday night. Polite crew, respectful of the house and belongings, explained the process and followed through. Kept in touch while monitoring the dry-out process for a week. I would definitely recommend them to anyone who has to deal with a water damage emergency.

I would never hire them again. I was disappointed in their service and I had to chase them. It took them six months to finish the apartment and that was a huge loss of rent.
