Superlative experience. First time using a contractor, was some trepidation involved. Completely satisfied with the outcome. Alex and his partner did amazing work - wow, the attention to detail and most importantly - pride in craftsmanship - was very, very impressive. Will absolutely use them for the next project that is beyond my skills.

I think they are very professional and nice. They were expensive, and did have to do some rework on my shower. That was disappointing, but they were very accommodating on getting it done.

I enjoyed the installation crew. They were professional, polite and did a good job cleaning up. They did really well. I wasn't thrilled with the textured job, but it was still good.

The subcontractors for Agape are excellent. The cabinet maker must start showing customers their product before he builds the cabinets. They need a showroom. We had to accept the cabinets as they were and could not make changes. Everything was a change order, which costs more money. They did not discuss where to put plug-ins. They didn't even ask us if we wanted changes for plug-ins. They have the potential to be incredible and fell way short.
