Absolutely, as a Home Owner and a Realtor, Miquel was what made the difference. His commitment to do every thing possible to ensure the job was done right, and that he met his deadlines, while listening to his clients needs!

Very professional in the whole estimation process, explaining options and invoicing. Worked effectively with Farmers insurance. Solved any problems or offered solution through the build process.

I would like to recognize Chris and I don't remember the man's name that actually did the work on my property but would recognize him as well. I live in a tight knit community and my neighbors were all watching him closely and they said he did a great job. He really did do a great job.

I wish we would have used Aspenmark in the first place because we are having a lot of problems with our current roof.

I was really impressed, I thought it was a really good job. They were very clean, there wasn't any trash or anything. They even cleaned up stuff that wasn't even part of their problem. It was good, really good.

Jonathan Smith did an awesome job and guy that explained what he did on the roof and why. He found some problems that I was not aware of that needed to be taken care of so as not to cause additional problems.

They explained every thing to me what the problems were and why it needed to be fixed. I really appreciated that. The installer explained everything he was doing and why. I would definitely use them again.

Melissa Caldwell was the reason we hired Aspenmark and if she was still there we would gladly hire them again. We got quotes from several roofing contractors and hired Aspenmark because Melissa noticed things that everyone, including the insurance adjuster, had missed. Additionally she was the only contractor that said that she personally would supervised the work. Having her onsite gave us the a lot of confidence in the quality of the job.

Kyle was professional and attentive. The initial installer (Antonio ?) who came to perform the roofing repairs was very capable, a hard worker, and identified the problem with the old skylight installation causing the leaks. This problem in the flashing was not discernable, until after the old skylight had been removed, prior to attempting to install the new skylight.

My husband and I both feel that Tom Herman is a great go to person. His professionalism and knowledge a exemplary. Also, the last person that did the patching on our roof (don't remember his name) was just amazing. You could tell he wanted to do a good job, He even returned the next day to make sure the shingles he replace were laying flat. Just a great young man.
