Building Company Number Seven did a fantastic job with my remodel / addition. It was a big project encompassing a two-story addition, a new kitchen, two new bathrooms, closet, laundry, and a large rear porch. They finished on time and were up front about any deviations from the budget, including making it clear when my selections were going to impact the budget. Scott Keiffer and Tony Hirsch were fantastic to work with and very responsive to all questions and concerns.

BC7 did an outstanding job on our addition! We have a 90 year old Spanish style stucco home, and they blended the addition in with the original look and feel of the existing home perfectly. They were professional, responsible and responsive.
