Ted Cline was fantasist! He listened to my needs and made me feel comfortable with honesty.He should be duly recognized! I only wish they did more! The financing option is a wonderful option for people. Most companies are not offering and very rare they stick to projected schedule and met the deadline. I would recommend them %100!

Warwick, NY
Oct 10, 2016

I felt they were like family. They said hello and good morning, and when I asked if everything would be ready they said yes. They were very good. I asked if they could put up a blind for me in a window and had requested that two doors be put together and opened up outside. They assured me it would be wide enough to have a bariatric stretcher go through it and it went with ease. They were so obliging and tried to help me in every way they could, and they did.

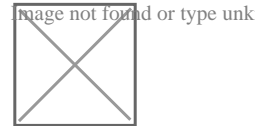

REVIEW

Mike K.
Rensselaer, NY
Dec 23, 2015

We researched every available basement system and kept coming back to Owens Corning due to the fact that walls could be removed and put back in place if we needed to get behind them for any reason in the future. The cost of the finishing system is competitive. The final product is very attractive and provides superior insulation. The contractor was amazing; he arrived on time each day and was very pleasant to work with. The job site was kept immaculate and cleaned each day by the workers.

Sep 15, 2015

I love my new basement. It is beautiful and well worth the price. This was one of the best experiences I have had with any company doing work for me. They were courteous, professional and addressed any issue quickly and with ease. This is the most practical system for any basement. The walls are removable so if there should be a problem behind the wall it is easy to get to. No sheetrock to have to cut out and replace is there should be a leak. My sight manager John is phenomenal!!!! Made me feel as though I was the most important customer. I would highly recommend this system and CKH industries to any and all persons. It is definitely the smart way to go and it is simply beautiful. To all that are thinking of redoing their basements... Do you really want to have to tear out walls and then have to redo....NOT....This is definitely the way to go.

Owens Corning was really professional, quick and efficient. There are a few things that need to be addressed, but I know that they are going to take care of them for me. I'm overall happy with the work and would recommend them to anyone. I would also contact if I needed any other work done. My overall experience was great.
