Chris was honest and detailed in his quote. Everything was discussed and they were able to fix mistakes from previous painters that did not do the job correctly. They were able to make our house look amazing and give it more street appeal. I would highly recommend Fresh Coat Painters and I've told my neighbors about them!

Fresh Coat Painters exceeded our expectations. They arrived on time and worked steadily throughout the days scheduled for exterior painting. Any questions or concerns we had (which were few) were handled promptly. The communication was excellent both during the estimate process and actual painting that took place. Highly recommended.

I was extremely satisfied with the quality of work Ken and Derek did painting all the rooms in my condo. They worked together very well and completed the project in a timely manner. They answered all of my questions during the project and were very flexible in making a few last minute changes that I had requested. They took care of imperfections in the drywall before painting. The owner, Chris Lebling, was always available to answer my questions and was on site a couple of times to inspect and check on the progress of the project. Because I was impressed with their high quality of work, I am having them return next month to also paint my garage. I highly recommend Fresh Coat Painters of West Chester.

just too many paint splatters on baseboard and door handles for a professional job. there were many areas, especially along baseboards and corners ("cut ins") where its obvious there was not 2 coats (I paid for 2 coats) because I can clearly see the prior tan/greenish paint under the new light gray color. Overall it was just an ok job for a group of pro-painters and the cutting-in should have been 2 coats like the rest of the job
