Excellent service and quality!!! Very Professional!

I am extremely happy and satisfied with the job IWC has done re-roofing my home. They completely tore off and re-shingled my house in one day then came back and made sure everything was cleaned up. Excellent! Plus, they were the best bid coming in $200 to $1000 less than all the others. I am very impressed...

I was pleased with the effort Intermountain West Contractors went to in order to get my job into production faster than their normal turn time. I was putting my home up for sale and had a tight timeline and they worked to move jobs, to fit me in. They were careful to cover everything and pick up. They...

The materials were quality. The warranty is excellent. The workers did a great job.

I am completely satisfied with the job that IWC did for me! After they were done there was a lot of garbage around my house, before they left you could not even tell that they had ever been here! My salesman Nick was great and the guys that did the actual work did a fantastic job! I would encourage...
CUSTOMER FEEDBACK REPORT for
Intermountain West Contractors

IWC provided a competitive bid. Performed the work on-time and on-budget. Just had a monster rain storm and my roof performed like a champ. I recommend IWC for any roofing need.

Excellent Contractor!! I interviewed 5 contractors for this project. John Carlson is one of the most knowledgeable and professional contractors I have had the pleasure to work with.

Great & very professional company. Best price. Best product. I am very happy for work. I am really recommend this company.

IWC is a very professional contractor. i am very pleased with their installation. when the issue arose with extra layers of shingles they were fair on the change order pricing and did not try to gouge me on the unforeseen condition. i would highly recommend using this contractor.

I did recommend them to a friend he is very pleased as well

on price, on time, great crew, best product cannot say anything even remotely adverse
Right from the start, Gerald of Intermountain West Contractors, was professional, on time, even early at our scheduled appointment. He gave us our bid, went over every detail of the quality and type of the product, how long the installation would take. The installation crew arrived @ 0630 and were completed...

They did an absolutely wonderful job. Everything was exactly as they said it would be. Timely, professional, and a great value. I wished I had 5 houses that needed roofs. Now if I could just find someone to do my basement that was that good.

They came and they sure worked their asses off! It was all done in one day and sure looked amazing when it was done. They were there for maybe 12 hours, and worked until the job was done. On the flip side, the roofing crew seemed a little disorganized at times, and they cleaned up most of the trash but...

A pleasure to have done business with Intermountain West Contractors! They did what they said they would do...and they did it in one day!

The work done on the roof looks good but the crew did a horrible job on cleanup. Hundreds of nails found on top of the patio roof and on the ground. Garbage was left in the yard, and gates that they opened were not closed after they left. Nick did follow up the next day and took the time to clean up the nails.

IWC is an incredible company with which to work. From the CEO to the office staff to the crew, I was extremely pleased with their customer service. I loved how they sent a large crew and finished the entire job in half a day except for some final touches that one person later handled quickly. IWC...

They did the entire job in a single day, and cleaned everything up.

IWC did a GREAT job! Couldn't be more pleased.

They we're great, did the job quickly and it looks great. They were great to deal with and answered any questions. One of my neighbors got a quote, and asked me about Intermountain West Contractors, I told him to use them

I was amazed. They were here by 6:00 a.m., and they worked and worked. The crew was phenomenal, and they cleaned everything up. We had a roof done before, by a different company, and they did a horrible job, so the roof had to be redone. When it was redone, they had to take off what the previous company...

Intermountain West Contractors did a superb job at a great price. They were very easy to work with and were happy to accommodate additional requests after the initial bid.

Excellent communication, explained the process very well. Completed work on time and on budget. Very pleased with both the work and the level of service.

IWC knows what they're doing when it comes to re-roofing a house. My house needed a complete strip down to planks with new plywood and the whole 10 yards. From start to finish it took their crew just a little over a day and a half, which is a lot faster than I could've done it. I would highly recommend...

This was the second roof IWC completed for me. They are on time great competitive cost easy to work with and expert roofing company. Call them for your roof project. You will be happy with their work and costs. Craig

I love the shingles and it stands up to the wind very nicely. However there have been issues and getting them back out to fix it. I had my roof done in May. Love the color and the guys that installed were there at 6am and done by a little after 3pm. Once they were gone I noticed a few shingles not laying...

This was the most organized group of people that we have ever experienced. Everything was done as exactly as it was stated in our contract.

★★★★★

Intermountain West Contractors were fair and knowledgeable. They showed up as expected and had the work done in half the time quoted. The area was left clean and a manager came by the next day to inspect and make sure the area was left in great condition.

I am very impressed with Intermountain West Contractors. They did everything in a very professional manner and would recommend them to anyone I know that needs a contractor.
