Would not hesitate to use again. Every single employee came and worked as scheduled. Friendly and highly efficient. I couldn't be more pleased.

Dec 07, 2018

They did fabulous work even beyond what I can say. They did wonderful, wonderful work and I can't say how happy I am with everything they did. The little painting of the walls that they had to paint, they painted the whole thing. They did over and beyond. They were fabulous, I would recommend them to anybody. If something ever happens again, they would be the one on my list to get things done.

Mark Scott Construction was so unprofessional in the way that they handled me that I feel like Allstate shouldn't do any more business with them. I have serenity gardens around my property that I pray at throughout the week because of my blood pressure. I was away from my home for five months due to the negligence of Mark Scott.

### REVIEW

Kelvin L.

I am totally unsatisfied with this company. The quality of the workmanship was poor. I had to constantly go over issues of unacceptable work. Their scheduling was not consistent. Some of the workers were not respectable to the property. They left their lunch trash on my porch.
