Max Baxter Roofing responded very quickly to our work request. They went an extra step and covered our basement stairwell and stopped it from leaking which had been a problem for us for several years. They completed the work in less than a day and the way they cleaned up before they left was amazing. We later bought the property beside us and wanted the house and building to be checked out. Max Baxter Roofing was the first AND ONLY company we called because of our previous experience with them. The house turned out to be in great shape but the building needed some serious work. We also had just built an 8' X 8' building with a porch for our dogs and needed to get it covered. Once again Max Baxter roofing did a great job and did it quickly and efficiently. We were amazed at how great the new doghouse looked and were very happy to know that they had also removed a couple of huge snakes while roofing the building on the property beside us. We did not know that snake removal was also a specialty of theirs but we were very happy it was that day.

The work crew was very courteous. I had questions during the day that they did their best to answer. They cleaned up great; when they left, you could hardly tell that they had been there except for the new appearance of the roof. The owners were so open to working with me and it was a wonderful experience from start to finish.
