They left a sign in the front yard that my wife wanted me to take down after they left but I left it up for as long as I could until she finally took it down. They did a fantastic job and I wanted people to know that I got my roof from them. I'll never have to get up there again. They have a lifetime guarantee, they said they'd fix any problems I had, and work with homeowners insurance to do any repairs we needed.

Dec 26, 2017

The did a good job on the shingles the drip edge is where I have a problem the drip edge comes in 10ft sections and it looks like they used a lot of small pieces and we have seams all over the edges also the corners were poorly done and when they were supposed to repair them they just took a hammer and hit them,they came back out twice and both times said that there was nothing that could be done and we paid almost 16,000.00 for this roof
