This is the fourth pool we have had and it was by far the best pool building experience. Regal built us a beautiful pool. amazingly quickly for a very fair price. The quality of the materials and craftsmanship was excellent and they were a pleasure to work with through every step.

Great sales and design. Execution: Disorganized; Lacks quality oversight to their subs; Minimal value added in a general contractor capacity; if doing again, I would've selected a different pool builder.

We love our new pool! We spend most of our time at home at the pool now. Regal did such a good job that we feel we are always on vacation and living on a resort. It's been great for entertaining, relaxing and exercising.

We had an excellent experience with Regal Pools. We shopped around with over 10 companies for over a year, and only Regal Pools offered exactly what we were looking for at a great price. They are extremely professional and quick to execute projects. I will definitely go with Regal Pools for future pools/projects, and have already recommended them to multiple friends.

Regal Pools is a first class organization and they did a great job designing and building our pool. I would not hesitate to use them again in the future and have recommended them to several of my friends. Pool construction was finished ahead of schedule and Regal has been very proactive with addressing the few issues that come along with any large project such as ours. The outdoor kitchen is beautiful and we have received many compliments from our neighbors.
