We have been very pleased with the product, the workmanship, and the performance of the installers. Overall our experience with Schmidt Exteriors has been excellent and we would highly recommend them to any of our friends if they are inquiring about doors.

We are still kicking ourselves for not replacing the windows sooner. They are a tremendous improvement to the exterior of course, but the best improvement is indoors: easier to clean and very good sound control. As an architect, I definitely feel that Schmidt Exteriors is a credit to the window & door industry.

I was most impressed with the speed of installation, the professionalism of the employees, and the site was left impeccably clean. After the workmen left, no one would've known we had windows replaced that day.
