First of all thanks for the good good job team Roofing. I had about a 20' x 20' shed that had a metal roof that was rusted through and of course leaking. I wanted to fix it up and store wood and lawn mowers in. I called one roofing company back in the spring and that deal fell through because of a price dispute and many other disagreements. now it's May and was looking again for a company found Team Roofing. These folks knew what they were doing apposed to the other company that started the work but brought the wrong material so it was on hold. Then they said they couldn't do the job for the price Quoted. I of course fired them. Team Roofing company took the rusted panels off the roof from on the roof on at a time. After seeing both company's skills of work, Team Roofing was a top notch company. Thank you Team Roofing for your expertise and work ethic and doing such a great job.

I have recommended Team Roofing to 4 people who ended up using them. They do good work and are on time and finish when stated pending weather. However everyone should review the written contract to make sure it covers all details on what the customer expects to be accomplished. People fail to use contracts to protect themselves and the contractor to make sure everyone is on the same page. I Recommend Team Roofing to others.
