Just make sure that you are clear on the financing of the Window Nation windows before signing. The windows are what I expected.

I thought I was going to be doing it in different sections, but after the first installation, I immediately called back and said, "Let's finish the whole house." I called them and said, "Let's go ahead with the whole house." I'm expecting them to come this week.

Nick was very helpful in helping showing me the best product for my home. Explaining the fetchers that would add to better efficiency for cooling and heating. The measure technician came to my home and measured for accuracy, very respectful of my personal belongings on dressers in front of the windows. The crew that came to the house to install my new windows was amazing. They worked together to remove my old windows and install my new windows. All debris was carted off and my home was left clean. My windows were also my windows were squeaky clean. I was showed how to use my new tilt out feature and the lock out feature. I was amazed how easily my windows opened and closed.

May 12, 2020

We couldn't be happier with our experience with Window Nation. At no time, did we feel pressure to do anything. In fact, Justin acted as a consultant/advisor and even suggested a more expensive option was not appropriate for our situation. The installation crew did a great job and were super friendly and courteous. The job was done right the first time. And, we LOVE our new windows and can already tell a difference from what we had before.
