5 stars across the board for Dimitri & Yanni ! I would highly recommend them to anyone. you will not find anyone with a better price, better work done in a timely manner; professional and treat you like family ! They called me back immediately when ever I called them. My kitchen looks fabulous and they did a super great job removing a slider and putting a wall in place with superb workmanship!

Very good work at a reasonable price for my renovated master bathroom. I liked the D & Y showroom in Venice and how everything is done "in house" with the same crews.

I enjoyed working with Chris and his crew. The renovation included kitchen, guest bath and laundry room. Most of the work was done while we were not there and I would not hesitate to hire them again. They were honest and trustworthy. We are completely happy with the job done.

We are new to the area and we were referred to Dimitri & Yanni. We are so happy they did. So far, they have installed a new kitchen, Counters & cabinets in both our bathrooms and they also removed a wall of windows and sealed up the whole to make the room more functional. I also plan on using them next year on several other projects.

Dimitri and Yanni are "hands-on", providing clients with personal service and an excellent selection in their studio, making it easy to shop and make decisions about tile, carpet, cabinetry, finishes, plumbing fixtures, etc. They are always willing to listen and share their expertise, not just doing what the client says, but making sure it is the correct approach and adding creative suggestions. They are budget-minded, yet produce a quality project that looks artistic, high-end, and beautiful. Definitely 5 stars!!!!

Dimitri and Yanni picked up the slack from the other person that I had out. The guy who did the mold, from Rainbow International was not good, but Dimitri and Yanni did a great job.

We could not have picked a better company than Dimitri and Yanni to give us our dream master bathroom. From beginning to end, it was a pleasure to watch the fine craftsmanship, commitment, punctuality and customer satisfaction of this company. They are not happy until you are happy. Would highly recommend them to anyone from small project to building a new home. You will not be disappointed.
