We are very pleased with the results of our project with Don Foote. From the practical design for a limited space to the craftsmanship that shows in the finished rooms, everything exceeded our expectations.

We highly recommend Don Foote Contracting. We hired the design/build team to do what turned out to be a major renovation: new custom kitchen, new powder room, new W/D closet, updated bathrooms. As soon as the walls were opened we discovered we needed to put in a new structural beam and to replace all the plumbing. Although a project of this size is not easy to live with, we were consistently pleased and impressed with the professionalism, efficiency, friendliness -- and most of all, quality of craftsmanship -- throughout.

Don Foote finished our addition on time and on budget. And the result far exceeded our expectations! Our foreman was professional and communicated very well at every step of the process. The job was extremely well organized and caused minimal disruption to our lives (we were living in the house during construction!). Workmanship was outstanding. Would highly recommend Don Foote to anyone considering a construction project.

Don Foote Contracting did an outstanding job on our renovation. His firm is a full-service contracting firm - he will take care of everything from design through inspections to complete delivery of the project. Don and his team turned what was a fairly complex design into a great finished project, quickly solving lots of little problems discovered during construction, and being very flexible and accommodating when we asked him to make changes or do additional work.

A very professional and experienced team that was reliable every step of the way. We had never taken on a renovation of any sort and to have their experience throughout and a very experienced project manager on site was extremely comforting. We are thrilled with our new kitchen, it not only met our expectations, it exceeded our expectations.

We could not be happier - Although it was still disruptive they did everything possible to make it go smoothly, including dealing with the inevitable unexpected things. It did take a little longer than their original time estimate but it was still very reasonable, and the people were always helpful and circumspect, and never laughed at our requests. And they were all just nice people so it was a joy to have them around. Good work too!
