Dan and his team helped us completely renovate the upstairs of our 1920's home. His team was available to answer questions we had throughout the project and provided multiple options, with upfront costs for each option, throughout the project. His team worked efficiently and kept on schedule so that we were able to reoccupy the upstairs before a new baby arrived. The finished product is exceptional and we would work with Dan and his team without question on any future project.

Dan, Donella, Eric, Grant, Josh... the whole crew and subcontractors were great to work with! I am a freelancer and worked from home throughout the course of this major remodel, so I saw everything, day in and day out. We’re thrilled with the results.

They are very good at communicating and returning emails and phone calls. They want to know what your thinking as the project is proceeding. I'm just as proud of their work as they are.Sandy M.
I felt comfortable working with Dan and Donella (designer), his crew and sub-contractors from the initial planning phase to completion. They all seemed to take pride in their work so I had confidence the job would be done well. They were easy to talk to, answered all my questions (lots), addressed my concerns and even gave advice when I asked. They dealt with any situations that arose professionally and I was very satisfied with their work.

I would have to say that Hanson Building & Remodeling is professional and efficient. They run a business that provides excellent workmanship, courteous service, and a good value.

Dan is a consummate professional with an impressive knowledge base. He brings enthusiasm and energy to every project regardless of size. I appreciate the integrity, work ethic, and level of craftsmanship of Hanson Building & Remodeling. Dan sets a timeline and budget and adheres to it. His team and subcontractors are respectful and talented.

Dan and his crew went above and beyond to complete two different projects to my satisfaction. It is a relief to know that I have found a contractor that I can go back to again and again and feel comfortable even referring to my closest friends.

I felt like they were total professionals. Once the project was under way, we didn’t have to worry about anything. It was done well, and all problems were taken care of. We just felt like we were in good hands.
Dan and his crew are pros. They treated my house and family with great respect throughout the entire project. I would recommend them without hesitation.

We had a great experience with Hanson Building and Remodeling. Dan was timely, on schedule, on budget and helped us figure out what would work best on our home based on the objectives that we shared with him. We would recommend them to anyone looking for a wonderful contractor.

Hanson Building & Remodeling is one of the few contractors we have worked with that has building science folded into how they approach projects. They do quality work - every time. Perfectionists, integrity, professionalism and a genuine interest to do our next project - no matter the size and scope - are what keep our family solidly in their repeat client camp.

Hanson Remodeling completed a kitchen remodeling for us. The project went well and was completed on time. Dan was great to work with and is exceptional at communicating with the customer and making sure you are satisfied. He was a great resource to walk us through all of our decisions and is willing to take whatever time is needed to help make those choices. The quality of work was excellent and the workers were all professional and trustworthy. We look forward to working with Hanson Remodeling again.
CUSTOMER FEEDBACK REPORT for Hanson Remodeling

Hanson Building and Remodeling is an incredibly professional organization that does superb work on a timely basis and within budget. They really understand their customers' needs and will do whatever is necessary to get the job done correctly.

I found Hanson Building & Remodeling to be extremely professional and considerate about my desires and fulfilling those desires. I would gladly recommend them for other projects of the same magnitude. They were delightful and courteous. We were very happy with the results.

We've used Dan Hanson and Hanson Building & Remodeling for multiple projects in our home. We have always been satisfied with the quality, communication, and the outcome.

Hanson provides high quality work at a reasonable cost. We have recommended them to friends and professionals we deal with. We always counted on Dan for great communication and willingness to please the customer.

Dan and the crew were great to work with for the remodeling job at my home. They began on time and ended on time as well. I was kept informed of all details that were going to need to be decided (we knew some decisions would need to be made as we progressed with the demolition). I was totally satisfied when all was complete.

The most professional group of construction workers I have ever worked with. They always showed up on time and their communication was timely and efficient.
