The re-facing job went on and on. It really is still not complete as the owner promised us he would look into replacing poorly installed moulding. That was 4 years ago. There were many issues that arose during the job. I would not recommend this company to do cabinet refacing.

Our project worked out perfectly. Howard's Kitchen Studio did all they were supposed to do when they were supposed to do it! My new laundry room is beautiful and functional. What more could you want?

This is my third kitchen with Howard's Kitchen Studio and my second kitchen with Sandee Daye. We love working with Sandee! She is very knowledgeable, creative and easy to work with! Mark, owner of Howard's kitchen and Sandee work very well together. I would highly recommend them!

Our experience working with Howard's Kitchen Studio was excellent! Sandy was a conscientious adviser throughout the selection process. We frequently receive compliments regarding the beauty and functionality of our cabinets (in kitchen, bar & 3 full-bathrooms), as well as the quartz & granite countertops; all of which were purchased through Howard Kitchen. The materials are beautiful and easy to clean! The folks at Howard's were flexible and accommodating. Meetings were efficient. Proposed plans were less cumbersome with the visuals provided. Sandy was incredibly helpful and flexible to schedule with! We remained within our budget, with Sandy's help! We are grateful for the services which Howard's Kitchen Studio provided us!

This was a challenging job, as all of the design work and the measurements were based on photographs, house plans, and spec sheets from the appliances. Everything fit beautifully.

Our designer, Sandee Day, was terrific. We worked out so many details in advance and that continued during the project. Ryan Hardigan was so conscientious and took great care of our home during the kitchen reno. We love our kitchen and would do it all over again!
