We were very satisfied with everything. We are going to use them for the rest of the windows in our house.

We bought replacement windows for our home and couldn't be happier with the entire experience. We'd checked out several companies but had reservations based on either the quality of their product or the customer service. From the initial appointment Matt was very professional and knowledgeable. Another reputable competitor had convinced us that we needed a more expensive window for our home but Matt was so honest and explained why our particular needs did not require the higher priced glass. The installation went so smoothly and it was obvious the installers were not rookies! In just one day we had beautiful new windows that totally transformed the appearance of our home. We were so surprised with the reduction of road noise and really appreciate how peaceful it is now. Matt and his team of professionals deserve more than 5 stars!!

Overall a wonderful experience. Although the job took about three weeks to complete due to some weather issues the focus was on quality of work rather than getting the job done quickly and moving on to the next job. Seeing the work and craftsmanship that went into this; I feel I got more than my money's worth. During the wall tear down, they discovered a carpenter ant infestation which would have caused serious structural problems if not addressed. They replaced the damaged wood with 2X4s and I was able to treat the area with insecticide.

Legacy did a great job. Everything was done right, they were careful to clean up any debris and they did the extras that I appreciate. I would use them again, and will.
