With a major renovation, we were happy with the workmanship of Maglione General Contractors. Joe Maloney was easy to work with and did everything to make sure that we were happy with the job. He stuck to the schedule and made it an easy process for us. There were no surprise costs. He was very thoughtful of our budget. He advised us all along as to what each week would bring. It was a good experience. Our architect too was very happy with Joe and his work.

The 5-star rating is well deserved. Although we were well along with the project before actually meeting Joe, I was even more impressed when I met him in person. His personality and interest in our project meant so much, especially since I was scheduled for surgery and was not able to physically be down at the shore while the work was being done. When I did get down to the shore to see the completed project, I was thrilled with the workmanship. We are getting raves from everyone who has seen it. There were a few minor requests I made after the work was completed and they were attended to immediately. No one could ask for a better contractor!!

My property had two major projects that Maglione Contractors successfully completed. Foundation in jeopardy due to rotting pilings along with replacement of a defective cement pad carport. A two story deck had rotted wood also required renovation.

Working with Joe from Maglione Contractors was a great pleasure. Everything was done to my specifications and the one on one with Joe was a great pleasure. The subs did a fantastic job and the recommendations from Joe to make the project even better were great. I have and will in the future recommend Maglione to anyone who is looking for quality workmanship at a fair price. Rich Henderson
