Initial handling of our insurance claim and roof replacement went smoothly. Replacing our siding has been dragging out longer than expected.

I was very very pleased with everything. We had a lot of rain but they worked around their scheduled and got it all done.

They did a great job, but none of the workers spoke English, so I was not able to communicate with them and they did not understand what I was saying to them.

Patriot was very competitive with our estimate and worked with our insurance to get partial paid from weather damage that happened over a year ago. They were very professional and did a great job in a timely manner. We are very happy with them and will refer to them whenever possible.

Patriot Roofing did an excellent job. They were timely and the materials are great. The installers' workmanship exceeded my expectations. Mark, my salesperson, did an excellent job. He is a great salesperson and person. Mark was professional. I recommended Mark and Patriot Roofing to my neighbors; they signed a contract with Patriot Roofing.
