From beginning to end, we were very happy with Pinnacle Concrete Coatings. The salesman was excellent; he knew about the product, was not pushy, and did a great job promoting what we were getting. The product is fantastic, it looks great, and I would definitely highly recommend them to anyone!

I love the job they did and how hard the installers worked. I have done epoxy before and it did peel after a few years. The floor is so good looking and I'm sure will last longer than me..LOL

They provide quality work. I've received a lot of compliments. Everybody is amazed by just the look itself. A couple of my neighbors were impressed as I'm the first in my development to ever have done this.

At first half of the floor did not look right and they came back (even the owner) and said it needed repairs. They came back and repaired it. I am well satisfied with the service they did for me!

Really like the flooring they put down. However, more than a little disappointed with the guy that gave us the estimate when he said they would be able to do our spalded (sp) concrete pad outside the garage door and the crew that came said it couldn't. The estimator even took pics which he was supposed to send back to the company and have it confirmed they could do it. I assumed since I didn't hear anything before they arrived to complete the project that it was in fact, doable. Apparently, it wasn't. And that was a large part of the reason I agreed to do the project. Long crack on one side also was not able to be filled which the estimate guy also said could be remedied. Lot of big claims, but a little short on delivery. I do like the floor though....

Our overall experience with Pinnacle was fantastic, from start to finish. Lee was prompt for our site visit and did a terrific job explaining the product and installation process. After we received a call that our job could be done earlier than originally estimated, Eddie and Thomas did an awesome job installing our new floor and leaving our job site clean. We are very happy with our new floor from Pinnacle!
