I wanted the carpets cleaning in one of our rental properties a standard 3 bath 1650 sqft rental home. My usual guy charges \$160 but was of ill health at this time and we had a new tenant arriving in 2 days. So I said to him the max I would pay was \$200. they had us cornered . The quality of cleaning..although it smelt nice was not all that good ... I can do just as good or even better myself with a Rug Doctor.!

Bruce was absolutely the best. Very knowlegable, professional and was always willing to answer any questions I had about the process. They were very efficient in the process from the tear out of my bathrrom to the drying out. I can't wait for the remodel portion to be completed. I would highly recommend Pro clean to everyone I know. The best experience I have had.

They did a great job on the carpet, I was not happy with the measurements. I had two rooms, different areas of exposed carpet and yet they charged the same amount for each room. I was happy with the cleaning service.

Everything was done to my satisfaction except that my 5" base moldings were ripped off the walls in pieces rather than being removed carefully and the minor portions of them that were moldy either treated with chemical or trimmed off. I could have gotten by with having enough to do my dining room by using the saved pieces plus removing the rest of the base in the laundry room and then replacing the laundry room base with a look alike that doesn't match but would be isolated in the laundry room. I have spent approximately 6 hours so far trying to find my original molding, and hope I can get a shop to custom manufacture a matching trim. The other strange thing is that they cut my sheet rock up 25 1/2". As sheet rock comes in 48" sheets, this means that you are essentially throwing away almost half a sheet.

The grout throughout my house was so dirty, and had been sealed on top of the dirt, so I did not think there was hope for it. ProClean was able to get it not only clean but LIKE NEW! I was amazed. I've always been happy with ProClean for carpet and upholstery and now I can emphatically recommend them for grout cleaning, as well!

When setting up the appointment on the phone the person was very nice and accommodating. I explained that we would like a quote for a room approximately 12'X16' and that there was blood on the carpet from an accident that would need special attention. She assured me that wouldn't be a problem and we would qualify for the minimum rate of \$125. We received an appointment for the following day. The window of the tech's arrival given to us was 2:30 to 4:30. I promptly received a confirmation text with the time and tech's name. The day of the appointment I received a call from the tech at approximately 2:00 to notify me he was running late and he would not arrive until approximately 5:00. Just before 5:00 I received another call from him to let me know he was on his way and would be there in about 30 minutes. When he arrived he was very courteous and got right to work on the blood stains. Soon he said it was done and it looked great. It was later when I realized he didn't do the rest of the room. When I looked at the paperwork it stated "Spot Clean" so he was given the wrong instructions. We didn't really mind because we mostly wanted the stains gone. When we looked at the area the next morning the stains had returned. I called ProClean to ask what could be done to correct it. After a brief hold she told me she would have the tech call me to see what our options are. I never received the call.

I asked them for a price to clean the carpet in my whole condo as they would be there anyway. They gave me a price which I thought was extremely high but I told them to go ahead and do it. During my conversation with Kelly I stressed that I wanted them to pay special attention to high traffic areas. I later found out that they only cleaned the living/dining room area and the hallway ignoring both bedrooms. This conversation was witnessed by my wife. They will not take ownership of the fact that they made a mistake. As an absentee owner I am at the mercy of people who I contract to help me and I have no confidence in Pro Clean . Unfortunately Management is probably hearing only one side of this story .
