Overall, very happy with our new kitchen. They took the time to understand our needs and designed our new favorite space in our home. Very collaborative during the process, especially when there were opportunities to make design tweaks/additions — accommodated every change. At the conclusion, they made sure the finish met our expectations and that we loved our new kitchen.

Early in the demo process the team came across a structural issue. I was worried it would totally derail the project, but the project manager made extra effort to quickly get house plans from the city to determine how the framing was done in the demo area, problem solved and the project continued without a hitch. They were great to work with and I would recommend Stewart Remodeling without hesitation.

I met Tom Stewart in 2010 and I was very impressed with him personally and professionally. He and his crew built a deck and cover as well as laying hard wood floors. Excellent job. We were completely satisfied.

We heartily commend Stewart Remodeling for the recent conversion of our fireplace from a pellet stove insert to a free standing wood burning stove. The job required design, framing, sheetrock, painting, tile, electrical, and masonry. Tom Stewart and his crew listened to our ideas and concerns, made thoughtful recommendations, and creatively overcame a tricky obstacle to our project. His craftsmen were considerate and professional. All of the work was performed flawlessly and neatly. We appreciate Tom's ability to coordinate the workers for completion of the work in a timely and efficient manner. The finished project has transformed our family room into a richer and more impressive area of our home, as the before and after photos will show. Thank you, Tom! Sincerely, James and Cynthia Maguire

Comment from Stewart Remodeling

James and Cynthia, Thank you so much for your review! It was a pleasure working with you!
