There were a few issues that Universal corrected. This took a long time. I fixed many items myself (nail holes - drywall cracks - sidewalk issue - two interior vents fixed - painting). There was a driveway cement border that was to be put in where Universal had a dumpster and portable toilet. They promised to fix this and fill driveway area with dirt and plant grass. I did the cement work myself and tried to get them to deliver some dirt to cover the area where toilet and dumpster were. No help was offered and I tried contacting them about ten times. Never received a call or any answer after any call or e-mail. I will probably fill in the area and plant grass myself when spring comes. This was very unprofessional and reflects badly on Universal.

Worst customer care service in the world. Poor quality workmanship and no support at all from universal. The company hasn't even responded or replied to my calls or requests for repairs. Contractors do sloppy work with no regard for the quality of the finished product. How do you get paint out of all the carpets and tiles?

I have E-mailed problems we are having as far as cracks in asphalt on patio, in house etc. Response was next to none and when I finally did get a response they stated they would get back with us and never did.Do we have to wait the two years before things are fixed? The items I sent in were minor things. When we had a leak in the roof, they came out immediately and repaired the inside and outside.I am sure things will be corrected, but is there a waiting period for this to be done? I would think they would want to see the patio cracks. These are major cracks that extend completely across the squares.

If some of the work they promised to be done would be done, my response would change. As of right now, I am completely disillusioned.

Universal Development is great. The salesperson was nothing short of fantastic. We lived in Beaver County and looked at Universal and Freedom Crossing. She sent us up here to take a look and we liked what we saw. The transition was nice and this area at Hermitage is great. This is all thanks to Kris. It was reasonably priced and I am happy with my home.

This is a very nice community. The contractors and sub contractors seemed very skilled. The universal reps - Vicki- Bob - Brian and Lisa are good at their jobs. We spent a lot of time with Vicki. She was always willing to talk and answer questions.

They were very easy to deal with, and Kris, from the time we were first interested, she was attentive and followed up. We had a time frame we were working with. We had to have them finish the condo within a time frame which they did well with. I was well pleased.

Everything they said they would do, they did. We were working in a tight time from because I was selling my home. So I had to have it finished in time so we could get out of the house and in to the new one. They were nice to work with, and they did everything possible finish in the timeframe promised.

Jul 10, 2012

One of the reasons I chose Universal Development at Freedom Crossing was because they were willing to work with me on how I wanted the interior of the house laid out. Other developers had the attitude of "I don't know that the builder could do that." Universal Development took the stance, "Yes, we can do that." They were willing to work with me to modify their standard plan to give me exactly what I wanted.
